MAY 27-32 OT 13 HS

December 29th, 1926.

TO OUR STOCKHOLDERS:-

Financial report showing the results of the International Shoe Company's operation for the fiscal year ended November 30th, 1926, is enclosed herewith.

The Company's net sales to customers for the fiscal year ended November 30th, 1926, were \$116,980,835.54. Our subsidiary plants (such as tanneries of sole leather and upper leather, rubber and leather heel factories, box toe, carton and container, chemical, rubber cement, etc.) produced during 1926, shoe materials and shoe supplies amounting to \$55,932,510.78, which, combined with our sales, made an aggregate of \$172,913,346.32 business transacted.

Net earnings (after taxes) for the fiscal year were \$13,217,576.33.

During the year most modern equipment for the manufacture of rubber heels was installed in the Mark Twain Plant at Hannibal, which is now making about 125,000 pairs of rubber heels daily.

On December 13th, your Company purchased from the Continental Leather Company of Philadelphia a sole leather tannery and extract plant. The sole leather tannery is located at Bridesburg, Pennsylvania (a suburb of Philadelphia), and has a capacity of 3,000 sides daily. The extract plant is located at Elkton, Virginia.

A split leather finishing plant erected during the year at Wood River, Illinois, has been in operation for four or five months and has substantially improved the quality of our finished splits.

The Marshall, Missouri shoe factory is being enlarged. The addition now in course of construction should be completed by April 15th, 1927, and from it we will get 3,500 pairs per day increase in the production of our scout shoes.

In many ways 1926 has been a difficult year. The present method of buying, on account of rapid and radical style changes, is wholly different from that of a few years ago. Formerly the Company secured orders in large volume for future delivery—this enabled us to make definite schedules for factory production and gave greater assurance to uninterrupted factory operations.

For the past two or three years it has become more and more difficult to anticipate the fluctuating demand for popular styles; but our factories have shown remarkable flexibility and adaptability in meeting the situation.

Although general conditions in the shoe and leather industries have not been favorable for the past four or five years, the Company has had a healthy growth both in volume of sales and in earnings, which is gratifying to its officers and directors.

The intrinsic value of the International Shoe Company's stock is found not in daily quotations on the stock market but in your Company's ability to stabilize its earnings and meet new conditions successfully, so that, in good years or bad, its earning power does not widely fluctuate. The following record illustrates this principle:

| | |
|------------------------|-----------------|
| Earnings for 1924..... | \$13,060,795.00 |
| Earnings for 1925..... | 12,721,444.00 |
| Earnings for 1926..... | 13,217,576.00 |

The strength of the Company's position is not that its average annual earning shows \$13,000,000.00, but that earnings are consistent and uniform.

On November 30th your Directors felt warranted in voting an increase in the annual dividend on Common Stock from \$6.00 to \$7.00 per share. Commencing January 1st, 1927, the increased dividend will be paid quarterly at the rate of \$1.75 per share.

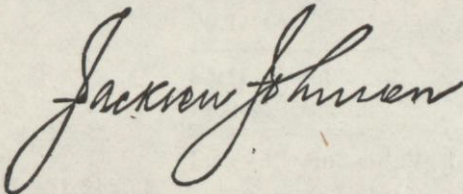

The Company is constantly strengthening its manufacturing not only in the shoemaking but also in the control and production of materials and supplies incident to shoemaking.

Despite its perplexing problems, Nineteen Twenty-six established a new high record for volume of sales and earnings by the Company. We believe in the Company's future—and begin Nineteen Twenty-seven with the confident hope that it will surpass the preceding years.

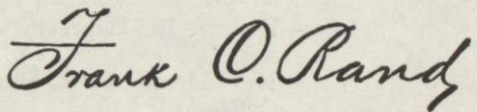

Respectfully submitted,

INTERNATIONAL SHOE COMPANY.

Yours truly,

Chairman of the Board.

President.

PEAT, MARWICK, MITCHELL & Co.
ACCOUNTANTS AND AUDITORS

CERTIFICATE OF AUDITORS

ST. LOUIS, MO., December 22, 1926.

We have audited the books and accounts of the International Shoe Company and Subsidiaries, for the year ended November 30, 1926, and certify that the accompanying Balance Sheet and Income Account have been prepared therefrom and, in our opinion, correctly present the financial position of the Company at November 30, 1926, and the results of its operations for the year then ended.

The cash and bank balances and securities owned have been verified by count or inspection or by certificates obtained from the depositories. We have satisfied ourselves that adequate provision has been made for doubtful accounts and notes receivable.

The quantities and valuation of the inventories of manufactured merchandise, raw materials, and supplies, prepared by the Company, have been certified to be correct by responsible officials. We have satisfied ourselves that the valuation was made on the basis of cost or market price, whichever was the lower.

All ascertained liabilities have been included in the accounts.

The physical properties are stated in accordance with the sound value thereof as determined by the American Appraisal Company as at April 30, 1925, plus subsequent additions at cost and after deduction of depreciation. Adequate charges against operations of the year under review have been made in respect of depreciation and maintenance of physical properties.
